Surface / BLM-SITLA
Fee
minerals / state

We lease part of the land from the BLM and another part from the SULA for surface use. Those are the areas that we have our ponds and dikes set up on. We own the property that the processing facility and the stock pile sit on. We are getting the minerals from the Great Salt Lake and pay the State a Royalty for the minerals. Thanks. Pat.

So the lease numbers you gave me are only for Surface ownership and not for mineral ownership. what are the BLM numbers for. I am confused. Tom

This is Surface ownership. It is my understanding that the state has all of the mineral ownership.

Is this mineral ownership only? Is the Surface ownership the same as the mineral ownership? thx Tom

The following our lease #'s:

- Salt Lake City District Office of the BLM # U-72411
- Salt Lake City District Office of the BLM # U-72412
- Salt Lake City District Office of the BLM # U-72413
- Salt Lake City District Office of the BLM # U-0128692
- School and Institutional Trust Lands Administration # SULA-107
- School and Institutional Trust Lands Administration # SULA-721

I will call this afternoon to discuss the reword of the after operations section.

Thanks.
Pat
